EDMONTON CONVENTION CENTRE

2026 AIRCRAFT MAINTENANCE ENGINEER COMPETITION

The Canadian AME (Aircraft Maintenance Engineer) Competition is a cornerstone event of the Alberta Aviation, Aerospace and Defence Annual Summit that highlights the essential skills and expertise behind Canada's aviation safety and reliability. This live competition brings together top AME teams (from Canadian airlines, MROs, post-secondary programs, and non-profit groups) to compete in practical, real-world maintenance challenges, offering spectators and students alike an up-close view of the technical precision required in aircraft maintenance.

Open to the public and high school groups across Alberta, the event also serves as a dynamic career exploration experience. Students can engage in hands-on activities and meet aviation professionals, helping to inspire the next generation of aviation and aerospace talent.

Support for the AME Competition means investing in Alberta's aviation and aerospace future while gaining visibility at one of the Summit's most engaging and educational activations.

Join us as an event sponsor, put together a maintenance challenge, or submit a team to compete head-to-head in this two-day event!
